SKILLS

Javascript, Node.js, Express, Ruby on Rails, React, NoSQL/SQL databases, Bootstrap, Handlebars, HTML5, CSS, Heroku, git/GitHub, MongoDB

EXPERIENCE

General Assembly, <u>Student</u>   *June 2017 - September 2017*

Web Development Intensive Bootcamp - student - full-time educational program where I learned the basics of web development and created full-stack applications using frameworks like jQuery, Express, React and Ruby on Rails.

Projects (all are available on personal GitHub link above):
- front-end **Jeopardy** game using jQuery, HTML and CSS
- **What's For Dinner** - full-stack recipe sharing site relying on Node.js and Express Javascript frameworks
- **KickIt** - full-stack soccer statistic site that utilized numerous APIs and the React Javascript library
- **Project Rover** - crowd-sourced travel/location review site utilizing Ruby on Rails and SQL database
- **LinguaLect** - a language learning site build on React on Rails with Ruby backend database integrating Oxford Dictionary's and Microsoft's Cognitive Services - Translation APIs

Jackson Lewis P.C., <u>Legal Assistant</u>   *February 2012 – April 2017*

Legal assistant in the New York office of a national law firm that represents employers in labor and employment disputes as well as in litigation. Duties included analyzing documents and fact patterns, developing support for defenses against an array of arguments and claims, and preparing pleadings for use in court

Cristo Rey Jesuit High School, <u>Teaching Assistant</u>   *2010 – 2011*

Member of Jesuit Volunteer Corps - assigned to Cristo Rey Jesuit High School in inner-city Baltimore, a school focused on preparing at-risk youth for employment or college.
